

KLove Radio is a valuable part of the Hampton Roads community. With its positive, family friendly programming, it provides the music, news and general information that meets my daily needs.

If KLove was displaced by LPFM providing other programing, the radio waves would lose the uplifting sound and refreshingly positive outlook on the world that KLove provides. Lives are changed daily by their witness to the world. We don't need more programming that can be found on so many other stations but we do need KLove.

Many distressing events occur in our world today. From wars in Iraq to the crime in the streets and in our homes and the lack of hope found in all corners of our country, the world can seem a pretty deperate place. KLove provide a light of hope found in truth. It is a light that shines through the on-air staff, music and all the programming associated with KLove Radio.

Thank you for reading and taking into consideration the above comments.
